OGDEN, UTAH, JULY 13, 1904.

RICH TRAVELER  
BECOMES INSANE.

Altitude Probably Cause of Unfortunate Condition of Edward Hebrock.

## VELAHUS MUST LEAVE UTAH.

Suit to Recover on Loss of Sheep in Transportation—District Court—Salt Lake City.

Edward Hebrock, a well-to-do young man from near St. Louis, Missouri, who had been in the city for some time, was taken by Officer John Hutchins from his eastern home to California, where he has fallen heir to a \$200,000 estate. Whether the fact of his good fortune or the high altitude affected his mind, it is uncertain, but when coming over the high mountains east of here he became mentally unbalanced and acted strangely. When the eastern train arrived in Ogden yesterday afternoon Hebrock rushed from the coach in which he was riding to the street and was taken to the city jail, where he was kept in custody. Hebrock was engaged in the business of real estate in St. Louis, and he seemed to improve, but last evening he took a sudden change for the worse and tried to dash his head against the iron bars, and was prevented from so doing by the quick action of the officers. After his wounds were dressed he was taken to the padded cell in the county jail where he could do himself no harm.

## VELAHUS MUST LEAVE UTAH.

James Velahus, the Greek who was arrested on the charge of threatening to kill Miss Hodge, of West Weber, will get out of his trouble easier than had been expected. The man evidently did not think he was going to get arrested for the remark he made, and is now repenting on the iron bars, and was given sufficient time to pack his belongings. The court gave him until tonight to get out of town, which he will do, and the action will be dismissed.

## DISTRICT COURT MATTERS.

In the case of E. T. Woolley against Ogden Woolen Mills company, a suit for salary, which was submitted to Judge Rolapp on the complaint and answer without the taking of testimony, the court decided that he would render his decision on the basis of the facts as presented by the case. The plaintiff has leave to reopen the case.

## SUIT TO RECOVER \$3,629.20.

An action has been brought in the second district court by A. G. Fell against the Union Pacific Railroad company to recover judgment in the sum of \$3,629.20. The complaint alleges that the defendant company agreed and contracted with the plaintiff to deliver for him 1,156 lambs from Soda Springs, Idaho, to Omaha, Neb., in a reasonable length of time; that said lambs were loaded on the cars at Soda Springs, Aug. 24, 1903, and defendant agreed to deliver them at Omaha on or before the morning of Aug. 31, 1903, but that the train carrying the lambs was delayed in the cars without food or water, notwithstanding the fact that plaintiff engaged the conductor and engineer in charge of the said train to hurry the same. They were careless and delayed it for the period of time mentioned, and the sheep did not arrive in Omaha until the afternoon of Aug. 31, when the market had gone down 50 per cent; that because of the defendant's neglect of the sheep 212 died, to plaintiff's damage in the sum of \$626; that the sheep brought in flesh to the amount of 36,000 lbs., and through the decrease in the market price he was damaged in the sum of \$1,335.20. Wherefore damages in the sum of \$3,629.20 are asked, and costs.

## JENSEN VS. JENSEN DIVORCE.

Mrs. Annie M. Jensen has filed suit in the district court against Christian Jensen for a divorce. The parties were married Nov. 15, 1891, at Ogden City, Utah, and have two minor children. The complaint alleges that for months past the defendant has been guilty of habitual

intemperance, and has neglected to provide his family with the common necessities of life. Wherefore plaintiff prays for a decree of divorce, custody of minor children and alimony.

## SALT LAKERS WED IN OGDEN.

Moore, the young man who was found dead in bed Monday morning by his father, death being caused from epilepsy, was laid to rest in the Ogden City cemetery yesterday afternoon after impressive services were held at the Wilson ward meeting-house. Bishop John Ruckham presided at the service. Some sweet music was furnished by the ward choir. The speakers were Elder John Barker, Frank W. Stratford, Pastor George W. Larkin, Sr., and Bishop Ruckham. The casket was covered with floral offerings, and a large funeral cortege followed his remains to their final resting place.

Mr. Mahler's visit is for the purpose of making arrangements for the building of a suburban electric railroad in this county which he is prepared to finance. This intention is to build from Payson in the south to Ogden, and later to Logan. An enthusiastic meeting was held by the Commercial club last evening at which members of the city council were present. After a statement from Mr. Mahler of what he intends to do, and a discussion of the project by those present the following motion was unanimously carried:

## BOARD OF EDUCATION.

A communication was received by the board of education, at its meeting last evening, advising the board that the city was entitled to a free scholarship in the state university. On recommendation of the board of examiners certificates were ordered returned to the following teachers who had attended the university summer institute: Fannie McLean, Ida Combs, Esther Reese, Eugene Roberts, Lizzie Thatcher, Jane A. Robinson, Mary Beasley, Olive Pratt and Y. L. Smoot. A sketch by Architect Watkins for a four room addition to the Timpanog school was submitted. The addition is 44,500 feet, two story and it is estimated will cost between \$4,000 and \$5,000. Mr. Watkins was authorized to get out plans and specifications in accordance with the sketch.

The clerk presented the financial report for the year ending June 30. ## SERIOUS HAYING ACCIDENT.

Hayfork Falls on Andrews Olson Penetrating His Back.

Ephraim, Sanpete Co., July 12.—A Herald special says that Andrews Olson was met with a very serious accident Thursday afternoon. While in the act of unloading lucerne with a large hayfork, the fork unexpectedly dropped from its fastening at the top of the handle. The fork struck Mr. Olson in the back and one of the tines embedded itself near the spinal column, penetrating the flesh to a depth of two or three inches. Dr. Jensen was called and dressed the wound. The wound is very painful if not of a serious nature. A little son of P. K. Olson was thrown from a horse last week and suffered a broken arm.

## HEBER.

## SCHOOL ELECTIONS.

Increased Interest Shown in School Affairs—Catch of Big Fish.

## Special Correspondence.

Heber City, Wasatch Co., July 12.—Wasatch county has successfully recovered from another school election, called throughout the various districts for the purpose of electing one trustee in each school district to serve for the ensuing three years.

At Midway John Huber, who has served with marked efficiency as a trustee for nearly 20 years, was succeeded by William L. VanWagoner, an active young man, possessing splendid qualifications for the position.

Joseph Parley Edwards, another talented young man, was elected to serve in the school district at Charleston.

At Heber the ballots were unusually accurate, a circumstance that indicated increased interest in school matters by the citizens generally. Messrs. John T. Giles and William Buys were placed on the tickets to be voted for, the former carrying the election by a plurality vote of 99, there being 317 ballots cast. The elections passed off pleasantly, and indications are that the choice of the people will be very satisfactory to all.

Heber has grown to be quite a supply station for pleasure-seekers, surveying parties and the public generally, enroute to the Uintah reservation country to enjoy their various vacations. Several of such parties have left equipped for sport and work during the last few days.

A party of local fishermen returned from the "big" Provo river yesterday, and reported a catch of some 160 of the finny tribe. Some of the trout weighed over 4 pounds. Notwithstanding the numerous "fish stories" afloat, we are inclined to believe that this Pleasure seekers will find Wasatch valley an ideal summer home, with pleasant days and cool nights, plenty of fresh, cool air, exercise and sunshine.

tual Improvement cause has acquired an enviable impetus in Sevier state.

## DEMISE OF A TALENTED LADY.

Last Saturday night Miss Botilda Freese, daughter of Mr. and Mrs. Peter Freese, answered the summons of the angel of death, and bade adieu to the sorrows and troubles of mortality of which she had had a double portion. For six years she lay in a darkened room suffering from "nervitus." More than three years ago she became comatose and since that time her cheeks wore the ivory bloom of perfect health. A few months since she contracted consumption, and last Saturday succumbed to the ravages of that dread malady. The sympathy of the entire community goes out to the stricken parents, brothers and sisters. She was a young woman in the prime of life, talented and highly gifted, universally beloved. Funeral services were held in the L. D. S. meetinghouse Sunday afternoon, Rev. G. W. Martin preached the funeral sermon, and officiated at the cemetery. A large cortege followed the remains to its last resting place.

## PROTECTED AMBULANCE MOTOR CAR.

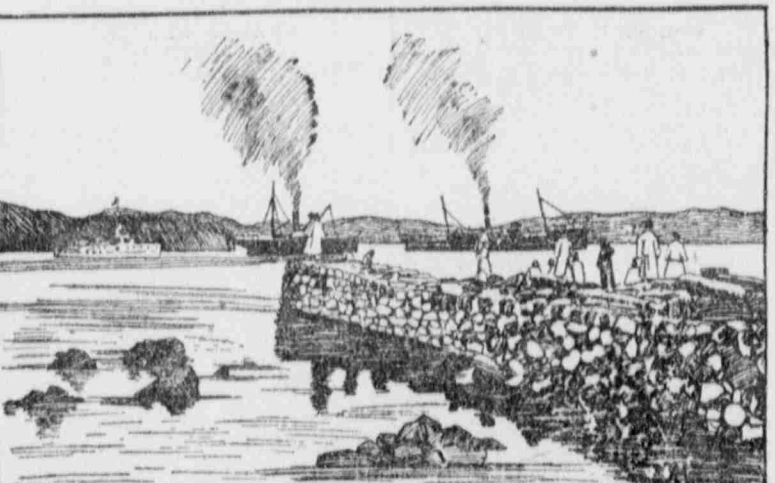

The peculiar motor car herewith illustrated is not intended as a fighting machine, but as a protection to those whose duty it is to minister to the victims of war. The device is simply a shell of armor plate containing a motor and accommodations for ambulance bearers and the wounded. These cars are not havens of absolute safety, but are expected to minimize the danger which always attends the approach of the stretcher men to the firing line. These men, being noncombatants and influenced only by motives of mercy, should be afforded every protection that is possible. This car was tested at Eisle, England, and it made such a favorable impression that more will be constructed and sent to aid the Red Cross workers in the east.

## LARGEST DERRICK CRANE IN THE WORLD.

The largest floating derrick crane in the world is in the New York navy yard. It is of 100 tons capacity and is supplemented by another crane of sixty tons. The huge crane is ninety feet in height and is sixty-five feet above the water. It is built on pontoons, and the overhang of its arm is forty-five feet. At a recent trial of its power it lifted the turret from the battleship Indiana with apparent ease. This crane is sure to be of great service in equipping the big warships which will be constructed during the next few years.
